

Ideation Phase Empathize & Discover

Date	04 -May -2023
Team ID	NM2023TMID11979
Project Name	Automated weather classification using deep learning
Maximum Marks	4 Marks

Empathy Map Canvas:

An empathy map is a simple, easy-to-digest visual that captures knowledge about a users behaviours and attitudes.

It is a useful tool to helps teams better understand their users.

Creating an effective solution requires understanding the true problem and the person who is experiencing it. The exercise of creating the map helps participants consider things from the users perspective along with his or her goals and challenges.

Automated weather classification using deep learning empathy map :

EMPATHY MAP

Empathy map

Use this framework to develop a deep, shared understanding and empathy for other people. An empathy map helps describe the aspects of a user's experience, needs and pain points, to quickly understand your users' experience and mindset.
